### **STUDENT CIRCULAR**

#### **Subject: Mandatory Use of English for Communication within Campus**

Dear Students,

This is to inform you that **English shall be the only medium of communication within the college premises**, with immediate effect.

The primary objective of this initiative is to help each of you **enhance your communicative English skills**, which is essential for personal and professional growth. Proficiency in English will not only boost your **self-confidence** but also **prepare you to face interviews and other career-related opportunities** with greater ease.

Hence, all students are **strictly instructed to communicate only in English** while on campus — including during classroom interactions, group discussions, and informal conversations.

Please note:

- **Use of any language other than English is not permitted** within the college premises.
- **Non-compliance will attract a disciplinary fine.**

Let us collectively work towards creating an environment that nurtures growth, confidence, and success. Your cooperation in strictly adhering to this directive is expected and appreciated.

Principal
